Assessment Background Information

Several themes have emerged from student outcomes assessment over the past years

- Students have difficulty with recognizing the opposing viewpoint and expanding their personal perspective to adopt a broader view.
- Students need to be further challenged in their ability to apply knowledge, draw valid conclusions and judge the validity of inferences.
- Organization and teamwork have been identified as areas of relative weakness for students in career and technical programs.

You can address one of these themes or any of the findings presented in a summary of Assessment Week results at: <http://www.mc.maricopa.edu/about/orp/assessment/>; OR obtain a complete Annual Report of assessment data by contacting the Office of Research and Planning at 461-7213.

Project ideas might include:

- Sponsoring workshops, speakers, or a scholarly event on campus;
- Engaging faculty in peer mentoring on outcomes assessment and using results;
- Forming a faculty learning community addressing a given outcome result;
- Creating a service learning activity to improve student outcomes performance-
- Designing new, interdisciplinary approaches to instruction that are outcomes centered
