## BASIC WELDING AND METAL SCULPTURE

Here's a unique opportunity to learn the artistic side of welding and metal sculpture. You'll learn the use of oxy-ace welding and electric welding methods. You will use them to design and create your own metal sculptures. Bring your creativity and artistic desire – we'll teach you the techniques and give you plenty of hands-on practice time to experiment with steel and different metals. You can expect to learn both the creative side and the practical skill of welding with an emphasis on personal safety. You'll leave with your own work of art for others to admire. Due to equipment and lab space, as well as safety requirements, enrollment is limited.

**Class is limited to 18 students.**
