

SURVEY ACTIVITY (GROUP)

Write the survey question used by your group. Include the five possible responses.

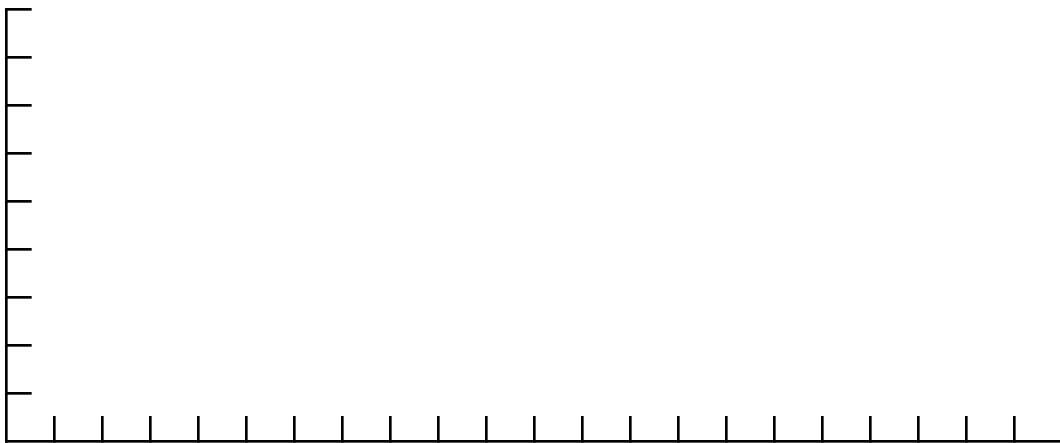

- A)
- B)
- C)
- D)
- E)

Complete the following table listing the response choices across the top and the group member names down the side. Show the total survey response for each person in the group. Compute the grand total for each response in your group.

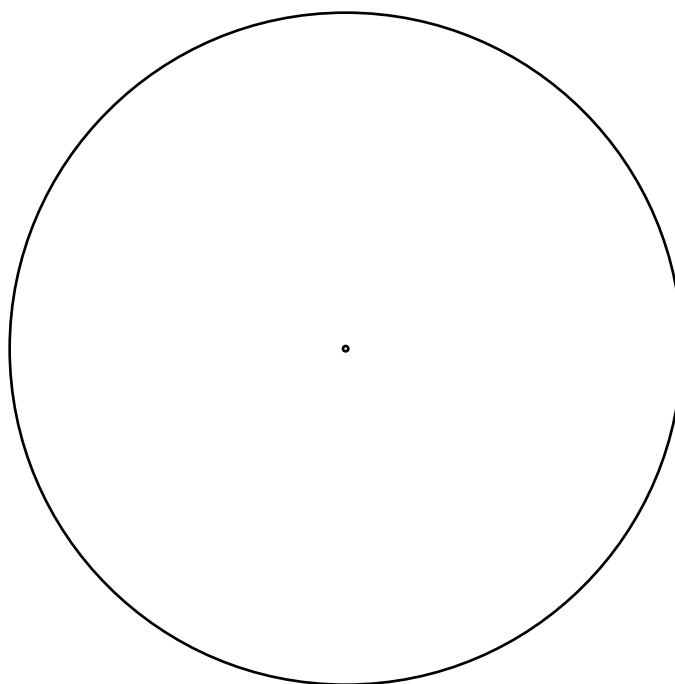

RESPONSES

	A	B	C	D	E	TOTAL
TOTAL						

A. Prepare a bar graph using the collected data. Label appropriately.

- B. Prepare a unit circle graph using the collected data. Show all calculations when determining the percent and the number of degrees. Be sure to include all appropriate labels.

- C. Prepare a Per cent circle graph using the collected data. Show all calculations when determining the percent and the number of degrees. Be sure to include all appropriate labels.
